Since 2001 A1 Microwave has brought high quality technically advanced microwave filtering products to the SATCOM market. Using sophisticated in-house design and simulation software, all new designs are "right first time" allowing the design to move from the computer to the machine shop without the need for prototyping. A1 Microwave's expertise is firmly rooted in the design and testing of microwave products and our founder has over 25 years experience in this area.

Ordering information :- Model number **PB1534WT** Ku-band Satcom Waveguide to Coax Transition

Designed to cover both the Ku band receive and transmit bands in a short overall length.

Passbands	10.7 to 14.5 GHz
Passband return loss	25 dB typical from 10.95 to 14.5 GHz
Overall length	25 mm
Flange	UDR 120 (alternative flanges available)
Coaxial connector	SMA female (alternative connectors available)
